- And Much More...

MAXIM™

Pull-Tab Vending Machines

At American Games, superior quality is our goal. We have continually provided the market with the most advanced Pull-Tab Vending Machines (PTVMs). Since the early 1990s, American Games, has supplied thousands of PTVMs that have vended billions of secure gaming products to players worldwide. Whether it be in the Lottery industry or the Charitable Gaming industry, our Maxim™ machines continue to offer the ultimate in speed, capacity, simplicity, visibility and security.

SPEED • The Maxim™ vending speed is among the fastest in the market, allowing more purchases in a shorter amount of time and ultimately increases sales.

CAPACITY • The Maxim™ offers high capacity and ease of use in a relatively small machine. The largest model, the Maxim™ 8400, is the largest-capacity ticket vending machine on the market. It holds almost 10,000 tickets.

SIMPLICITY • The Maxim™ boasts a very simple ticket loading procedure. Interchangeable ticket columns are accessed and loaded from the front of the machine and are easily adjusted to accommodate different ticket sizes. This eliminates downtime whenever it's necessary to change games or switch from three-tab to five-tab tickets.

VISIBILITY • The Maxim™ now features attention grabbing LED lights to attract players to the machine. You can choose from the different settings: slow flashing, fast flashing, always on, off, or a sequence of all.

SECURITY • Maxim™ machines are equipped with several features that have become the standard in the vending industry including: solid steel and Lexan construction, confidential PIN numbers for both managers and employees, multiple lock access, audible alarm, and a market-proven bill acceptor.

In addition to the superior quality and features, American Games' Maxim™ machines are backed by a one-year warranty and toll-free phone support.

WHY CHOOSE THE AMERICAN GAMES MAXIM™?

1. The Maxim™ is among the fastest vending machines in the market.
2. The Maxim™ is the only vending machine that can also vend Crackerz™ and Chips™ tickets.
3. The Maxim™ is available in five(5) different machine configurations to accommodate any organization and space requirements.
4. New LED lighting provides up to five(5) programmable options to attract and entice players.
5. The Maxim™ is the only machine with the ability to DOWNLOAD sales and audit reports right into Excel™. You no longer have to hand-type your sales figures into your computer!
6. We stand behind our 1 year warranty and unlike other machines on the market, we do not require that you only use American Games tickets.
7. We have knowledgeable and friendly toll-free phone support, along with the ability to connect with customers via FaceTime™ or Skype™.
8. We provide on-line instruction videos and on-site training options to suit your educational needs.
9. We listen to our customers! Many of our recent updates and upgrades have come from users just like yourself.
10. All Maxim™ machines are assembled right here in our Council Bluffs, Iowa facility.

AN INDUSTRY 1ST 4 COLUMN EXPANDABLE PULL-TAB VENDING MACHINE

American Games is proud to offer the industry's only expandable Pull-Tab Vending Machine (PTVM).

For those customers new to vending, the expandable 4 column PTVM is sure to be a hit! Start with a 4 column machine, see the success, and expand to a 6 column machine!

Start with a 4 Column Machine and see the success...

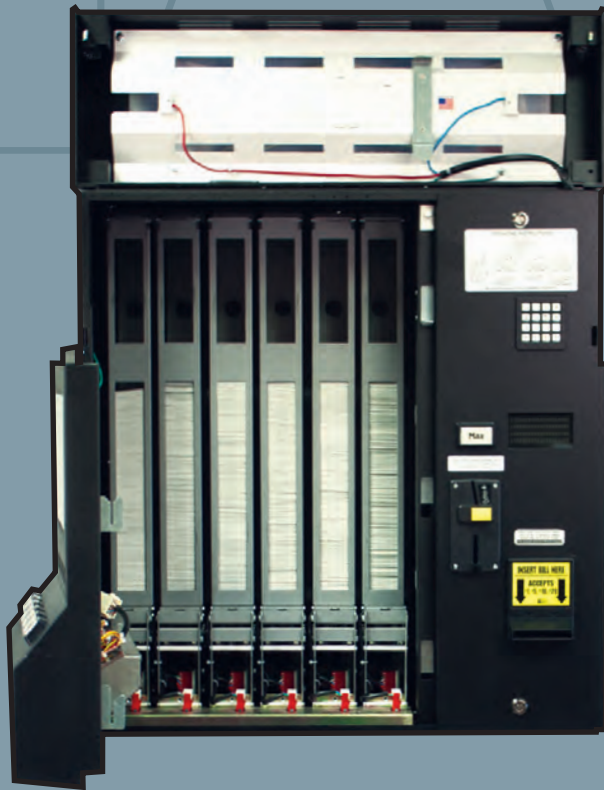

...expand the machine into a 6 Column Machine...

...and see even more success!

THE MECHANICS

- Bin Timing calibrates each column to vend various ticket sizes, including die-cut tickets.
- Buttons flashing in random sequence and LED price displays attract more players.
- Interchangeable ticket columns work independently to eliminate downtime.
- 4 and 6 Column Maxim™ are wall mountable.

- Audible front-door alarm.
- Ticket and cash compartments are keyed separately
- Bill validator stacks up to 600 bills

- Large display menu walks you through reports and ticket loading quickly and easily.
- Step-by-step programming makes Maxim™ functions faster and easier than ever.
- With a Maxim™, you can...
 - View the reports on the screen
 - Print the reports on an onboard printer

AND NOW...

- DOWNLOAD the reports onto a memory card. Then insert that card into your computer and you can now keep your reports electronically! Have multiple machines? No problem! Use the same card for them all! The Maxim™ card will keep track of the report by the machine's serial number!
