Bingo Lingo

ONs: Number of individual bingo faces per sheet.

1 Set (all one color): One complete series of 9,000 bingo faces.

Number of booklets per set: 9,000 divided by the number of ONs.

UPs/ Collated bingo paper books: Booklets containing any number of our various colored sheets, any cut.

Number of UPs: Number of sheets in a collated booklet.

Total faces per collated set: 9,000 multiplied by the number of UPs.

Faces per book: Cut style (ONs) multiplied by the number of UPs.

Case paper: A complete series of 9,000 faces using any cut (ONs) all of the same color.

For example...

To determine the total number of bingo faces in a 6 ON, 10 UP collation, take 9,000 (number of faces for each color) multiplied by 10 colors per booklet, which equals 90,000 faces.

To determine the total number of booklets for a 6 ON, 10 UP collation, you divide 9,000 by 6 ON (number of faces per sheet), which equals 1,500 booklets.

Easy-Track™ Audit System

American Games' bingo paper is protected by a fool proof audit system that lets you track inventory in sheets and booklets.

In the example shown below, the 3H-1504 indicates that this is book 1504 of the set of 3000 books in the set. (9,000 faces to the set divided by 3 faces per card yields 3,000 books.) With this information, you know 1496 books have been sold and 1504 books remain in the set.

4. Use the star as an additional free space, it's your choice, you decide...

Tri-Corner Bingo™

Players love this game for the fast action, and managers like the odds. No consolation to worry about - always just one of two prizes. Available in 1-9 B-Blines™, in all 36 ON cuts. Choose between **red** or **purple** border (other colors available with custom orders). Can be collated into your bingo booklets.

How to play: the face is divided into two triangles - One with 14 numbers, one with 10 numbers. Play stops when one triangle is covered. The small triangle hits nine times more often, for which a smaller prize is offered.

Double Play Bingo™

Double Play Bingo™ features:

- 3,000 single cards per set
- Sold in 8 vibrant colors: **blue, orange, green, yellow, pink, red, purple, and white**
- Available in the following cuts:

Games of Choice™

*Available as a custom order product.

Use Games of Choice™ for your multi-level play. The four different colored booklets identify different prize levels.

How it works: Each page in the booklet is the same color. A blue booklet contains i.e. 10 blue pages, with each page containing a sheet number. Player will choose a color booklet to purchase, which dictates the prizes that can be won. For example, if bingo is won on a blue page, a \$100 prize is claimed; a red page might pay a \$200 prize and a green page might pay \$300, and so on. 'Games of Choice' is a popular game in Las Vegas casinos and in large commercial halls with multiple sessions per day.
